

FOR COMMERCIAL SYSTEMS AND RESIDENTIAL SYSTEMS GREATER THAN 10 KW

1

Submit Co-Energy Metering (CEM) Agreement

Customer/Contractor is required to submit **3 original signed copies of the CEM Interconnection Agreement** to the Azusa Light & Water Customer Service Department. The agreements can be found on the web at (<http://www.ci.azusa.ca.us/DocumentCenter/View/27227>).

2

Turn in Release Forms

Customer/Contractor is required to sign and submit 2 Release Forms (provided by Azusa Light & Water) prior to meter spot or submission of plans to Building and Safety Department. Building and Safety will not issue permits without the Release Form.

3

Contact ALW Electrical Engineer for Meter Spot and Approval of Plans

Meter Spot:

- Commercial/Industrial Customers: not required
- Residential customers with system more than 10 Kw: Contact Customer Service at (626) 812-5225 to request a meter spot appointment.

Plans:

- Residential customers: Plans should follow the Electric Standard ED-25 found at <http://www.ci.azusa.ca.us/DocumentCenter/View/24453> guidelines.
- For Commercial or Industrial Customers: Contractor must **submit 3 copies of plans** to the Electrical Engineer located on the 2nd floor at 729 N. Azusa Avenue, Azusa CA 91702 for review and approval. ALW Engineer will notify Customer/Contractor the status of plans. If plans are approved, Customer/Contractor is responsible for pickup after being notified. If the plans require additional corrections, Contractor is required to revise and resubmit for approval.

4

Receive Meter Spot Paperwork (Meter Spot is required for residential service only)

Azusa Light & Water Electric Crew will determine location of panel upgrade with or without the presence of the Customer/Contractor. If the Customer/Contractor wants to meet field personnel at the site, he/she may request that when making request for meter spot. Field personnel will provide a copy of paperwork showing the approved location of panel.

5

Azusa Economic/Community Development

Customer/Contractor will need to proceed to the Planning Division counter at Economic/Community Development Department (213 E Foothill Blvd) for plan approval. Customer/Contractor will need to **submit 3 copies of the plans**. Once Planning Division approves the 3 plans, Staff will keep 1 copy and then send the customer to Building Division counter with 2 sets of plans to submit for plan check review. Please contact Building Department for associated fees.*

6

Obtain Building and Safety Permits

Once the plans are approved, the Customer/Contractor will need to obtain the necessary permits from the Building and Safety Division in order to proceed with the installation of the system.

7

Final Inspection

After the system is installed, Building and Safety Division will need to do a final inspection. If approved, staff will issue a release to Azusa Light & Water. This release allows the Azusa Light & Water Electric Crew to install the Solar Net Meter and begin production of electricity.

Note: ALW does not issue Permission to Operate Letters.

*Indicates that Plans can change based on the property/plans/paperwork inspection and would need to resubmit.
